

**We're a diverse tapestry
of people, place and purpose.**

ALDRSGATE IS NOT ONE PLACE, BUT MANY.

Through our nearly 75-year history, Aldersgate continues to evolve, just like the elders and communities we are honored to serve. In this diverse mix, we celebrate the past, welcome the present and build toward the future with bridges between generations and cultures.

ALDRSGATE

Master Plan Expansion

**Extending our mission to honor
elders as we foster diverse, caring
communities.**

Our Master Site Plan was created to thoughtfully respond to the growing demand for a vibrant, mixed-use experience in East Charlotte. This plan is separate from our life plan community, while staying true to our mission and honoring the extraordinary look and feel of Aldersgate. It includes a 236-unit multi-family community that will primarily serve a mixed-income population of adults, age 55+.

Shook Kelley, a nationally recognized architectural firm, is creating an artful design that will balance utility and beauty.

The Master Site Plan aims to ride the wave of East Charlotte's resurgence as one of the city's best places for homeownership, and include commercial amenities such as medical office space, restaurants, retail and more. Our plan will elevate Aldersgate's appeal as a special place to live, work, play and create connections between peoples and cultures.

- A walkable, multifamily, mixed-income, 236-unit community which includes 200 age-restricted apartments for people age 55+.
- Significant green space, a park, a dog park and other natural amenities, such as a breathtaking tree-rich landscape.
- Planned commercial space and services tailored to Aldersgate's needs and the broader Master Site Plan.
- A future unique-rate, for-sale residential community that will provide a highly sought-after housing choice near our campus.
